

Subject: Application for Software Developer Intern (New York) – Summer 2026

Dear Hiring Committee,

I am excited to apply for the Software Developer Intern position at the D. E. Shaw Group's New York City office for Summer 2026. As a Computer Science student with a deep interest in the intersection of technology and finance, I am eager to contribute my technical expertise and problem-solving skills to one of the most innovative and intellectually rigorous firms in the industry.

What draws me most to D. E. Shaw is your reputation for combining computational ingenuity with creative thinking to address some of the most complex challenges in global markets. The opportunity to collaborate with distinguished professionals who thrive on intellectual curiosity and data-driven innovation is one I find both inspiring and motivating.

Through my academic and project experience, I have built a strong foundation in algorithms, data structures, and systems design, with practical proficiency in **Python, C++, and distributed computing frameworks**. In a recent project, I **developed a no code AI model Creation platform**, which strengthened my ability to write optimized, scalable, and reliable code under demanding performance constraints. Additionally, my work with **machine learning models and cloud-based architectures** has made my passion for leveraging technology to solve complex, high-impact problems.

I am confident that my blend of technical skill, analytical mindset, and commitment to continuous learning would enable me to make meaningful contributions as a Software Developer Intern. More importantly, I am enthusiastic about the chance to immerse myself in D. E. Shaw's unique environment one that values both technical excellence and collaborative exploration.

Thank you for considering my application. I have attached my resume for your review and would welcome the opportunity to further discuss how my skills and interests align with this role.

Sincerely,

KHUNDRAPAM BIKASH MEITEI
